

MOHAMMED PARKER

Cape Town, South Africa 7500 • +27 83 786 4913 • mraaziqp@gmail.com

PROFESSIONAL SUMMARY

Software Engineer and Systems Administrator with strong expertise in full-stack application development, cloud computing (AWS Certified), and enterprise infrastructure management. Proven track record of architecting scalable multi-tenant SaaS platforms, interactive VR applications, and AI-orchestrated tools. Combines hands-on systems reliability, VMware virtualization, and Azure/Active Directory administration with modern web development methodologies to deliver secure, high-availability software solutions.

TECHNICAL SKILLS

- **Languages & Frameworks:** TypeScript, Python, C#, Next.js, React, Node.js, Tailwind CSS, Unity (XR)
- **Cloud & Databases:** AWS (EC2, S3), PostgreSQL, Firebase, Supabase, Docker, REST APIs
- **AI & Architecture:** AI Orchestration, LLMs (Gemini, Ollama), CI/CD, Microservices, System Observability
- **Enterprise IT & Systems:** VMware, Hyper-V, Linux, Windows Server, Azure AD / Entra ID, Microsoft Intune

FEATURED SOFTWARE & XR PROJECTS

LifeStack | lifestack.co.za — *Full-Stack Engineer*

- Engineered an AI-powered project management and personal assistant web application using Next.js, React, and TypeScript.
- Integrated intelligent schedule optimization, automated activity tracking, and RESTful API endpoints for personalized productivity workflows.

VR Phobia Therapy (Virtual Reality & Game Dev) — *XR Developer*

- Developing an immersive Virtual Reality application in Unity Engine and C# designed for controlled exposure therapy to assist individuals with phobias.
- Designed spatial interaction mechanics, dynamic VR environments, and real-time behavioral feedback loops.

Hustle Studio | hustlestudio.co.za — *Lead Full-Stack Developer*

- Architected a multi-tenant business operations platform featuring point-of-sale (POS) systems, financial tracking, and embedded AI copilots.
- Implemented multi-tenant database isolation and query optimizations to support high-availability operations.

Emeron (Enterprise Recruitment Platform) — *Full-Stack Developer*

- Developed an end-to-end talent acquisition platform featuring automated CV parsing, algorithmic candidate shortlisting, and role-based client portals.

XPFinance | xpfinance.co.za — Full-Stack Developer

- Built a personal finance and expense management application with interactive analytics dashboards, transaction categorization, and budget tracking.

VerifiedBizLink | verifiedbizlink.co.za & TotalLÿ | totally.co.za — Full-Stack Developer

- Built B2B verification networks and multi-tenant service booking platforms with custom administrative control centers and secure database schemas.

PROFESSIONAL EXPERIENCE

IT Admin | BCX — Cape Town, South Africa 10/2024 – Present

- Manage and coordinate server, virtual machine (VMware/Hyper-V), and Active Directory engineering workflows, consistently meeting strict enterprise Service Level Agreements (SLAs).
- Direct the Microsoft team's request and incident queues; triage complex technical escalations, prioritize workload distribution, and exercise autonomous decision-making for task resolution.
- Provision, configure, and maintain physical and virtual enterprise server infrastructure, establishing remote diagnostics and system observability.
- Oversee end-to-end server lifecycle management, including decommissioning protocols, compliance documentation, and audit readiness.
- Serve as the final technical gatekeeper and QA sign-off authority prior to deploying infrastructure changes and client-facing solutions.

IT Technician | Reddington – Ensure IT Services — Cape Town, South Africa 07/2023 – 10/2024

- Performed root-cause analysis, hardware diagnostics, and component-level repairs for enterprise laptops, workstations, and printers.
- Managed parts procurement, warranty tracking, and inventory logistics through Microsoft Dynamics.
- Resolved complex networking, operating system, and hardware configuration escalations.

IT Technical Support Intern | FPG Group — Platteklloof, South Africa 05/2023 – 09/2023

- Administered user identities, access control (RBAC), and security policies in Azure Active Directory (Entra ID).
- Deployed operating system images and configured enterprise software across distributed company workstations using Microsoft Endpoint.
- Participated in cross-functional technical meetings to troubleshoot systemic errors and support IT modernization initiatives.

L1 Technical Support Engineer | Construct Education — Cape Town, South Africa
05/2023 – 08/2023

- Delivered remote technical support across 54 KFC branch locations and educational portals, troubleshooting Canvas LMS and mobile app issues.
- Authored accessible technical guides and standard operating procedures (SOPs) to streamline troubleshooting for non-technical users.

EDUCATION

Advanced Diploma in ICT: Applications Development Cape Peninsula University of Technology (CPUT) — Cape Town | *Graduated 04/2025*

- Focus: Full-stack application development, software design patterns, advanced SQL, systems analysis, and Agile methodologies.

National Diploma in ICT: Applications Development Cape Peninsula University of Technology (CPUT) — Cape Town | *01/2023*

Higher Certificate in ICT Cape Peninsula University of Technology (CPUT) — Cape Town | *01/2020*

National Senior Certificate / High School Diploma Fairbairn College — Cape Town | *01/2019*

CERTIFICATIONS

- AWS Certified Cloud Practitioner — Amazon Web Services
- Lenovo Certified Technician (2023 – 2031)
- DELL Certified Technician (2023 – 2031)

INTERESTS & ACTIVITIES

- **Interactive Tech & Game Development:** Developing VR simulations and mechanics in Unity & C#.
- **Hardware & Electronics Restoration:** Component-level troubleshooting and physical computing.
- **Culinary Arts:** Precision coffee extraction methods and artisanal confectionery.
